

# *EMPLOYEE BULLETIN*

No. 453

12 June 1975

## AVAILABILITY OF COPIES OF THE ROCKEFELLER COMMISSION REPORT

1. The "Report to the President by the Commission on CIA Activities Within the United States" was submitted to the President on 6 June 1975.

2. I believe it both essential and desirable that employees of this Agency have an opportunity to read the complete text of this document. It is only by such a complete reading that one can appreciate both the significance of the recommendations and be able to understand in complete and objective perspective the many subjects treated.

3. Arrangements have been made to have available a considerable number of copies of this report at the main desk of the Library of the Headquarters Building. Employees are encouraged to avail themselves of the opportunity for reading the report in the Library. Additional arrangements are being made to have copies of the report put in a convenient location for employee reading in the other installations throughout the Washington area. At such time as those arrangements are completed, information as to where the report may be read in the other buildings will be locally circulated.

4. I am in receipt of a letter by the President requesting me to present him with my comments and position on the recommendations contained in the Commission's report. I am now in the process of taking action to respond to this letter.

5. I will be in further communication with you on this matter as time progresses.

  
W. E. Colby  
Director
